

REMARKS

The above claim amendments are submitted along with the following remarks to be fully responsive to the outstanding final Office Action mailed March 20, 2006. It is further submitted that this response is timely filed within the three month shortened statutory period. Reconsideration of all outstanding grounds of objection and rejection and allowance of the subject application are respectfully requested.

Claims 40 and 58-66 have been canceled by this amendment, thereby leaving claims 42-51 as pending in the present application and claims 1-12, 14-41, and 52-56 as canceled. Claim 13 was unintentionally omitted from the application as originally filed. Due to cancellation of claims 40 and 58-66, the rejections of these claims under 35 U.S.C. §102(e) and/or 35 U.S.C. §103(a) in view of Uchigaki et al. and/or Kwon et al. are deemed moot.

Applicants note with appreciation the Examiner's indication of the allowability of claims 42-51. Accordingly, it is submitted that all of the presently pending claims 42-51 are currently in condition for allowance, a notice of which is earnestly solicited. The Examiner is invited to contact the undersigned, at the Examiner's convenience, should the Examiner have any questions regarding this communication or the present patent application.

The Commissioner is authorized to charge any additional fees or credit any overpayment to Kagan Binder deposit account No. 50-1775 and notify us of the same.
